## FLASH ANIMATION TECHNIQUES

### » Line Animation in Flash – 4 Different Techniques

#### » For Straight Lines:

- 
1. Shape Tween – quick and simple
  2. Classic or Motion Tween - to animate the width or height of the line (stretching the line)

#### » For Curvy & Complex Lines

1. Animated Masks – very effective and probably the most popular of techniques
2. Frame-by-Frame Masks – for complex lines
