Overview of Course Learning Report Concepts

Competency: Statement of what students are expected to know and be able to do by the time they complete the learning experience. Assessment Method: The systematic collection, review, and use of information about educational experiences undertaken for the purpose of improving student learning and development. Consider the following:

- WHAT What is the assessment tool? (Example: course assignment, test questions, paper, presentation, project, portfolio, etc.)
- o HOW How will the assessment results be evaluated? (Example: rubric, answer key, observation checklist, rating scale, etc.)
- WHO Who will conduct the assessment? (Example: 4 out of 5 faculty)
- o WHEN When will the assessment be conducted (semester, year, week)? (Example: spring 2013 week 16, etc.)

Expected Level of Achievement: Benchmark or specific level of performance expected of students serving as a point of reference by which performance is measured.

Results of Assessment: Summary of assessment results after analyzing assessment noted in the *assessment method* column.

Next Steps: Recommendations for improvements (if there are any). Next steps can include revision to assessment methods, competency, syllabi, curriculum, teaching methods, student support, and other.

Continuing the Cycle of Improvement: If this is not the first cycle of assessment for this course / competency, what were the "Next Steps" from the previous assessment cycle? Include "Next Steps" status.
