Course Learning Report

Course: FSHE 185, The Science of Human Nutrition

Date: May 12, 2014

Author: Cyndy Kahalewale, MPH, RDN, LD

Overview of Course Learning Report Concepts

Competency: Statement of what students are expected to know and be able to do by the time they complete the learning experience. Assessment Method: The systematic collection, review, and use of information about educational experiences undertaken for the purpose of improving student learning and development. Consider the following:

- WHAT What is the assessment tool? (Example: course assignment, test questions, paper, presentation, project, portfolio, etc.)
- o HOW How will the assessment results be evaluated? (Example: rubric, answer key, observation checklist, rating scale, etc.)
- WHO Who will conduct the assessment? (Example: 4 out of 5 faculty)
- o WHEN When will the assessment be conducted (semester, year, week)? (Example: spring 2013 week 16, etc.)

Expected Level of Achievement: Benchmark or specific level of performance expected of students serving as a point of reference by which performance is measured.

Results of Assessment: Summary of assessment results after analyzing assessment noted in the *assessment method* column.

Next Steps: Recommendations for improvements (if there are any). Next steps can include revision to assessment methods, competency, syllabi, curriculum, teaching methods, student support, and other.

Continuing the Cycle of Improvement: If this is not the first cycle of assessment for this course / competency, what were the "Next Steps" from the previous assessment cycle? Include "Next Steps" status.

Action: Incorporate quizzes after every chapter (15) and offer extra credit randomly to encourage attendance and more engagement in discussion on course content

Date: Spring 2014

Action:

Continue with current lesson plan and syllabus relevant to this competency

Date: Spring 2014

PROGRAM OUTCOME	Competency	Assessment Method	Expected Level of Achievement	Results of Assessment	Next Steps
PLO #1: Integrate the knowledge, skills and attitudes in all areas of basic food preparation, advanced culinary arts, basic baking, nutrition, menu planning, guest	Competency 1: Describe the characteristics, functions, and food sources of the major nutrients and how to maximize nutrient retention in food preparation and	What: quizzes, written in-class assignments, discussion, midterm exam How: answer sheet, observation, feedback to students on written assignments/essay questions	Expected: 70% pass with "B" (80% of total possible) or better	Results: 82% received a grade of "B" (80%) or better	Action: Continue with current lesson plan and syllabus relevant to this competency Date: Fall 2014
services, and operational controls and management required to meet the requirements for a Certified Culinarian by the American Culinary Federation Foundation.	storage.	Who: Lecturer When: after every chapter, mid-semester (midterm), every class period (discussion)			
PLO #1: Integrate the knowledge, skills and attitudes	Competency 2: Apply the principles of nutrient needs	What: quizzes, written in-class assignments, discussion, group	Expected: 70% pass with "B" (80% of total possible)	Results: 63% received a grade of "B" (80%) or better	Action: Lecturer will continue to review
