- Form 112 - Online

The University of Hawai'i's Form 112 - Statement of Qualifications Questionnaire for Architects and Engineers went online as of May 14, 2008. Click the Consultants/Contractors tab or the "Login Now" image. [View Latest Notice to Providers of Professional Services \(posted on 06/30/2017\)](#)
- CIP Budget

Details on the current Board of Regents' CIP Budget and previous CIP budgets are posted in the Reports option.

About this Website

The Office of Project Delivery (OPD) implements major construction projects, which includes new developments and major renovations of existing buildings. The Facilities Business Office (FBO) performs administrative functions to support OPD and campus facilities offices in the implementation of construction projects.

This site was developed as a central source for project information, as well as for procurement forms for professional architects, engineers, planners, contractors, etc. who are interested in performing work for the University of Hawai'i.

Capital Improvement Projects

Capital Improvement Program (CIP) projects are funded through state issued general obligation or revenue bonds. CIP projects include construction of new buildings, major renovations of existing buildings, and major repair or maintenance projects.

As with the UHCC operating budget, the CIP budget is based upon a 2-year, biennium budget cycle. Through an extensive and cooperative process, a biennial CIP budget request is prepared and submitted to the Legislature for consideration when it convenes in regular session in every odd-numbered year. A separate Office of Capital Improvements coordinates and administers these funds for the University system.

The community colleges currently have a backlog of \$67M in repair and maintenance projects. A listing of backlog projects can be found [here](#).

(http://www.uhcc.hawaii.edu/OVPCC/financing_cc/docs/FY14_WEB_Backlog_10-10-13.pdf). Eliminating this backlog is a strategic priority for the community colleges. Major new campus development or redevelopment is being planned for Hawai'i Community College (both East and West Hawai'i), Honolulu Community College, and the Wai'anae Education Center. A summary of the long-range development plan for each of the seven campuses can be found [here](#) (http://www.uhcc.hawaii.edu/OVPCC/financing_cc/planning.php).

The community colleges are also actively involved in the planning of the new Honolulu rail transit system as rail stops are currently projected to be on both the Leeward Community College and Honolulu Community College sites.

A listing of all current building or renovation projects, as well as current repair and maintenance projects and their status can be found [here](#) (http://www.uhcc.hawaii.edu/OVPCC/financing_cc/projectList.php).
