## Student Success Council

For more information about the many projects implemented through the Student Success initiative, please visit the [Student Success Council](#)

Resource Center (<http://uhcc.hawaii.edu/success/>) website.

The UHCC System of seven community colleges has been building a culture of innovation, continuous improvement, and data-based decision-making for over a decade but especially since joining the Achieving the Dream initiative in 2006. UHCC has adopted this culture of change in order to strengthen its student success agenda through:

1. funded faculty-driven innovation committees;
2. campus strategic performance numbers recently renewed in the [UHCC 2015-2021 Strategic Directions](#); and
3. performance funding.

In order to prioritize these strategies and implement them consistently throughout the community college

system, in Fall 2014, the UHCC system established the [Student Success Council \(SSC\)](#). Composed of representatives from faculty, administration, institutional research, Banner, P/20, the SSC has identified four focus areas to increase student success:

1. **Developmental Education:** The UHCC system has launched a large scale approach to accelerate students through college level math and English. National data through such organizations as Complete College America consistently show that incorporating the Co-Requisite model, rather than the pre-requisite model, results in many more students successfully passing gatekeeper courses.
2. **College Pathways:** Through the online STAR system, implemented at every UH campus, students can see what his or her progress is within a certain pathway or major. As a result, STAR shows the student what his or her course selections should be in the upcoming semester. STAR serves as the official registration tool.
3. **Just in Time Support:** UHCC students face many challenges. Providing just in time, customized support for non-cognitive issues will minimize stress and allow students to focus on academic success.
4. **Graduation and Transfer:** Graduation and transfer must remain as a focus of the SSC, for degrees, both associate and baccalaureate degrees, help students in their quest to find living wage careers.

In AY 2014-15, the SSC focused on the redesigning the developmental education structure. The following tasks were completed:

- [Math Models Consolidated 7.28.16](#)
  - [English Models Consolidated 7.28.16](#)
    - [UHCCP 5.213 Time to Degree: Co-Requisite](#)
      - [Chancellors letter dated March 17, 2016](#)
        - [Questions & Answers, HSI March 5, 2016](#)
          - [Meeting Notes from the March 8, 2016 SSC meeting](#)

### Adopted SSC recommendations
