IS 109 proposed to replace IS 103

IS 109 is part of the *Achieve the Dream* initiative. It is a modification of IS 103 which it replaces, and includes a greater focus on Hawaiian Culture.

**Discussion**

- Discussion focused on the possible lack of academic rigor.
- The course modification is funded through a Title III grant that expires in 2014
  Senators questioned the resources available to continue the course after 2014; however, it was explained that the Chancellor is on record to fund the course as part of the regular curriculum after 2014.
- Senators questioned how the E-Portfolio would be used for assessment.

**Approved pending modifications** Vote 11/0

IS 109 provisionally approved to replace IS 103 if the following provisions are met within two weeks, by Friday, May 21st, 2010, with the approval of the Executive Committee.

- Revise the competency E-portfolio statements to be measurable: 1) make social connect, 2) Build a sense of community, 3) Use self-expression to develop self-determination.
- Describe under resources how preset classroom and office resources will be affected.

- Change current Math 100 requirement d to Math 103 to reflect the need for improved computational skills.
