CTE LICENSURE PROGRAM

A TOOLKIT FOR THE CTE
ED INSTRUCTOR & COLLEGE SUPERVISOR

“You can’t live a perfect day without doing something for someone who will never be able to repay you.”

-John Wooden
Aloha Alternative Certification Program ED Instructors and College Supervisors,

Mahalo nui loa from Leeward Community College for your kokua in teaching and mentoring our CTE Candidates into your classrooms. We consider this opportunity invaluable for our candidates who are on their way to becoming the next generation of career and technical education professionals in our schools.

The Alternative Certification for CTE Licensure program of study is designed to prepare candidates’, who seek licensure through the Hawai`i Teacher Standards Board and employment in the Hawai`i Department of Education (DOE), with educational content and a toolkit of strategies and skills necessary to become effective practitioners in CTE classrooms at the secondary level. By the end of the Alternative Certification Program candidates will have knowledge of pedagogy and knowledge of multiple learning styles leading to practices that demonstrate sensitivity to diversity and social justice.

Candidates enrolled in the alternative pathway leading to licensure are required to successfully complete educational coursework and two semesters of Practicum. The first semester in the Practicum will focus on an observation and participation (O&P) experience and the second semester Candidates will student teach. Your teaching and mentorship, in essence, becomes essential in providing the candidates with the guidance and support to be successful in the Program.

This handbook will define the policies and procedures for Practicum. Together we will explore the challenges and opportunities that will be encountered as you work with us to “Change the world, one CTE candidate at a time!”

Please feel free to contact me if you have questions.

With Gratitude,

Brian Ichida, Program Director/Instructor

Frequently Asked Questions for ED Instructors/College Supervisors
1. How is the Alternative Certification for CTE Licensure Program Organized?

The Program’s conceptual framework can be thought of as a “spiral standards-based” approach. It is standards-based because the Program recommends Candidates for CTE Licensure whenever they “meet proficiency” on the ten state teaching standards required by the Hawai’i Teacher Standards Board (HTSB).

It is spiral because each education course that they take, including the Practicum I & II field experience, repeats or spirals the same 5 modules that cover the ten teaching standards. We chose to spiral the Program because reviewing the same teaching standards repeatedly will give them multiple opportunities to demonstrate their proficiency on those standards.

In addition, the Program provides an “evaluation and reflection” break at the end of each Module, in order to give the Candidate and the Cooperating Teacher time to debrief and discuss progress on the standards, and to give the Candidate time to work on completing the teaching portfolio and rationales that are required by the Program.

All documents and information that you will need for the Program are available on its website: http://teachcte.leeward.hawaii.edu/

On the website, you will find the Alternative Certification Program Overview so you can see exactly how each standard, module, and course assignments of the Program are connected, and you will also find the Alternative Certification Program Course Overview which will give you a one-page snapshot of the entire Program’s Track I courses and modules.

Because the Conceptual Framework is a large document and would difficult to use as a reference or assessment tool in the classroom, the Alternative Certification Program has streamlined the Conceptual Framework into the CTE Candidate Assessment Form to measure the Candidate’s proficiency on the ten teaching standards.

The CTE Candidate Assessment Form will be used throughout the program in order to provide the Candidates with clear guidelines and continuous feedback on how they are progressing on the standards. There is a hard copy at the back of this handbook, but the CTE Candidate Assessment Form online version represents the official Assessment Form the Program will use when rating the Candidate’s performance.

Since the CTE Candidate Assessment Form represents the “tool” that everyone in the program uses to rate Candidate’s proficiency, we require that any first-time rater go through a brief training by completing the Rater Trainer Module found on the Program’s website under CTE Candidate Assessment.

2. How much time do the CTE Candidates need throughout the semester to teach their required coursework lessons?
Practicum I - ED 295A (Observation & Participation): Observation & Participation (O & P) is designed to introduce the CTE Candidate to the CTE classroom through a series of 5 observational and participation assignments that helps the CTE Candidate focus on areas of effective teaching. CTE Candidates who are not hired as interns in CTE secondary classroom are expected to complete 150 hours of field experience (2 days a week @ 5 hours/day) and teach 2 solo lessons. Together, the Cooperating Teacher and the CTE Candidate can determine the level of participation and timeline needed until the CTE Candidate is ready to teach the 2 solo lessons. In addition, O & P provides opportunities for the CTE Candidate to self-assess progress and create 5 teaching artifacts and rationales to be used in a teaching portfolio at the end of the program.

Practicum II - ED 295B (Student Teaching): Student Teaching is designed to provide opportunities for the CTE Candidate to teach solo in the CTE classroom through a series of 5 student-teaching assignments that helps the CTE Candidate focus on areas of effective teaching. CTE Candidates who are not hired as interns in CTE secondary classroom are expected to complete 15 weeks of student teaching (full-time) and teach solo for 3 weeks. Together, the Cooperating Teacher and the CTE Candidate can determine the level of participation and timeline needed until the CTE Candidate is ready to teach the 3 week solo period. In addition, Student Teaching provides opportunities for the CTE Candidate to complete a teaching portfolio that demonstrates that the Candidate is ready to be a licensed CTE teacher in his or her own classroom.

3. What are the field placement hours?

CTE Candidates are expected to be in their field placements on each assigned field day. They are to be on time, sign in/out at the office, and remain at their placement for their scheduled hours (O & P) or the entire day (Student Teaching). They are to maintain teacher hours, which will be determined based upon the DOE school schedule. Cooperating Teachers may adjust the field placement start and end times to suit the special needs of their schedule and/or their students. As professionals, CTE Candidates are expected to find adequate daily/weekly time to meet and plan with their cooperating teacher. This may mean that, when possible, a CTE Candidate adjusts her or his hours of attendance to parallel the Cooperating Teacher’s hours. The key is to assure that there is adequate time set aside each day to communicate with the Cooperating Teacher and plan accordingly. Almost all CTE Candidates and Cooperating Teachers find that they need additional planning and discussion time before the start of the school day and after the final bell, especially during the Student Teaching semester.

Field placement includes all professional development (PD) days, planning/collaboration days, teacher work days, Teacher Institute Day, faculty meetings, IEP meetings, etc., that
take place during the semester. In addition, students are **highly encouraged** to participate in other school-based activities that may extend beyond normal hours, such as: school-community events and meetings, extended field trips, parent/student conferences, and professional meetings, conferences (which are often on weekends) and workshops. The more opportunities the CTE Candidate has to experience everything that a teacher’s job entails, the better prepared the Candidate will be to serve his or her students and the profession.

4. **What are the expectations held of CTE Candidates over the course of their O&P field experiences (ED 295A - Practicum I)?**

The CTE Candidate (who is not hired as an intern) is in the CTE secondary classroom to observe and participate in working with the Cooperating Teacher. CTE Candidates can assist with tutoring students one on one, work with small groups, and full group instruction as they apply teaching strategies and lessons developed in their education courses, after careful planning with their Cooperating Teachers. Their education course assignments can usually be integrated with the curriculum currently taught in the CTE secondary classroom. As end-of-semester goals in O & P, the CTE Candidate should be able to plan and teach at least two lessons (or mini-lessons) without the Cooperating Teacher’s assistance.

5. **What are the expectations held of CTE Candidates over the course of their Student Teaching experiences (ED 295B - Practicum II)?**

In Student Teaching, CTE Candidates actively participate in experiences that will develop competence and teaching values. At they take on the total responsibility of teaching, they have the guidance and support of the Cooperating Teacher (for CTE Candidates who are not hired as interns), Cooperating Principal, and the College Supervisor who work jointly to help CTE Candidates meet licensure standards. CTE Candidates who are not hired as interns, teach a three-week solo period that can be taught in consecutive weeks or spread out over the semester. During this Student Teaching experience, the CTE Candidate is to develop a standards-based unit plan consisting of a minimum of 5 lessons (the final number to be determined by the Cooperating Teacher and CTE Candidate). The College Supervisor will formally evaluate the presentation of at least one of the lesson plans during the solo teaching time.

6. **What should CTE Candidates (who are not hired as interns) do when they first arrive at the school site for the Practicum?**

When CTE Candidates first arrive, they need opportunities to get to know the students and Cooperating Teachers with whom they will be working. Cooperating Teachers should have CTE Candidates assist them in routine tasks and gradually allow CTE Candidates to take lead responsibility for those tasks. CTE Candidates can work with individuals and small groups of students. CTE Candidates must also spend time observing, making notes about questions they have, and talking with their cooperating teacher about their systems and
strategies in the classroom. The first practicum, O&P, is about learning about how schools and classrooms work, with a gradual move toward teaching “solo” lessons.

7. **Do I need to keep track of the O&P CTE Candidate’s hours spent in the classroom to ensure that they meet their minimum required hours?**

   Yes. The CTE Candidate and the College Supervisor assume responsibility for this kind of record keeping. During the first semester of the program the CTE Candidate is expected to attend each designated field day (O&P). During the second semester, the CTE Candidate is expected to spend five full days a week in his or her placement. CTE Candidates who are not hired as interns should call their Cooperating Teachers and their College Supervisor in advance if they will be absent. Absences should be made up on additional days, with the Cooperating Teacher’s approval. In addition, the CTE Candidate should not ask to leave early on field experience days other than in unavoidable situations.

8. **Can CTE Candidates use “instructional time” to prepare for lessons they will teach in the classrooms?**

   Cooperating Teachers (for CTE Candidates not hired as interns) should give approval for anything that CTE Candidates do in the classroom. Thus, if a Cooperating Teacher wants a CTE Candidate to work on lesson preparation, the CTE Candidate certainly should do so. However, if the Cooperating Teacher wants the CTE Candidate engaged in other work, that’s what the CTE Candidate should do. Cooperating Teachers should feel free to ask for help from the College Supervisor if the CTE Candidates are using field experience time inappropriately. CTE Candidates may not be sure what they should be doing during their O&P field experience and some are hesitant to ask (i.e., they don’t want to be a bother). Making a written schedule with the CTE Candidate about their increasing responsibilities is especially helpful.

9. **Can the CT leave the O&P CTE Candidates alone with the students while s/he leaves the classroom?**

   Cooperating Teachers can leave CTE Candidates alone with the class when the Cooperating Teachers and CTE Candidates feel that they are ready to handle the responsibility. During the O&P field experience, Cooperating Teachers should allow CTE Candidates to have increasing responsibility for handling the classroom alone. Cooperating Teachers should let CTE Candidates know where they will be and how to contact them quickly should the need arise. A substitute teacher must be hired if the Cooperating Teacher will be off-campus.

10. **What is the role of the Leeward CC Alternative Certification College Supervisor?**

    The College Supervisor visits the classroom at least five times during each Practicum and supports the CTE Candidate, and to collaborate with the Cooperating Teacher as needed. The College Supervisor provides oral and/or written feedback to the CTE Candidate. For
CTE Candidates that struggle to meet basic field expectations, the College Supervisor facilitates a Plan of Assistance for Improvement.

11. **What assessment instruments are used to evaluate the CTE Candidate?**

The CTE Candidate Assessment Form represents the overall assessment instrument used by the Program to evaluate the CTE Candidate’s effectiveness as a teacher and to recommend him or her for CTE licensure. The CTE Candidate Assessment Form measures the knowledge, skills, and dispositions of teacher effectiveness based on the ten HTSB standards outlined by the state. To be recommended for licensure, the CTE Candidate must “meet proficiency” for each of the ten standards. The CTE Candidate, the Cooperating Teacher, the College Supervisor, and the Education Instructors all use the CTE Candidate Assessment Form extensively throughout the Practicum and Education Courses to assess the CTE Candidate’s progress, but also as a feedback tool to help guide and focus the CTE Candidate on areas that need improving. This ensures that the standards for being recommended for licensure are clear to the CTE Candidate, reinforced throughout the entire program, and most importantly, provides the CTE Candidate many opportunities to receive feedback and improve in order to “meet proficiency” for all ten standards.

Specifically, in the Practicum courses, the hard copy of the CTE Candidate Assessment Form (found at the end of this handbook) serves as an excellent guide for the CTE Candidate, Cooperating Teacher, and the College Supervisor to focus their comments and feedback on a few standards at a time. Using the guide’s results, in Practicum I, the CTE Candidate formally self-assesses his or her performance by completing the online CTE Candidate Assessment Form, and in Practicum II, the Cooperating Teacher and College Supervisor complete the form as a final evaluation of the CTE Candidate’s proficiency on the ten teaching standards.

12. **What do I need to do if I feel the CTE Candidate’s performance is marginal with respect to the expectations?**

Start by talking with the Cooperating Teacher. The College Supervisor and the Cooperating Teacher can talk with the CTE Candidate to help identify areas of strength and areas for improvement and offer specific recommendations on how to improve. If CTE Candidates continue to have problems, the Alternative Certification College Supervisor will initiate a Plan of Assistance. CTE Candidate’s performance will be assessed throughout and at the end of the semester to determine whether the CTE Candidate will continue in the program.

13. **How much weight does my evaluation of the CTE Candidate count toward the teacher candidate’s “grade?”**
The Cooperating Teacher’s ratings in the CTE Candidate Assessment Form are considered in the overall context of the final ratings from the College Teacher, Education Instructors, and the CTE Candidate’s own self-assessment. The Alternative Certification Program Faculty looks for consistency and improvement of performance in the ratings, but ultimately 70% of the proficiency scores from formal observations and courses on each standard need to be rated at “meets proficiency” or higher for the CTE Candidate to be recommended for CTE Licensure. CTE Candidates who have not demonstrated readiness to move to the next level may be required to repeat O&P field experience or Student Teaching to demonstrate their knowledge, skills, and dispositions for teaching. CTE Candidates who do not demonstrate the required levels of performance will not be recommended for licensure.

14. What paperwork will I be required to complete?

ED Instructors:

- For each CTE Candidate’s course assignment, score with a rubric and submit to Laulima Assignments for Program records. Use Laulima Assignments also to record any feedback and re-submissions to improve score from the Candidate.

- At the end of your course, complete the CTE Candidate Assessment Form where appropriate for your course. Base rankings for each standard on corresponding rubric scores.

College Supervisors ED 295 A/B:

- For each Module, provide feedback for Candidate’s Practice Plan before observation.
- For each Module, observe the Candidate, take field notes, and submit to Laulima Assignments under the appropriate Professional Practice Plan.
- At the end of the Module, complete CTE Candidate Assessment Form for that Module, and use field notes for rankings, and comments for commendations & recommendations.
- For Modules 3 and 4, the Candidate should be teaching 2 solo lessons or solo 3 weeks.
- For Module 5, there is no observation of CTE Candidate (first week meeting counts as Module 5 observation) but complete the CTE Candidate Assessment Form for Standards 9 & 10 after reviewing Candidate’s Practice Plan for Module 5.

What Makes an Effective College Supervisor?
Help CTE Candidate to develop Professional Practice (Standards 9.1-9.4):

- Visit the classroom as observer and support. This will be done for each Module 1-4.
- Provide specific feedback on Candidates’ O & P/ST plans in a timely manner.
- Take notes of each observation and submit to Laulima Assignments for the Candidate to review.
- Provide gentle, but effective specific feedback (Please use Kale’a Silva’s excellent strategies for mentoring Candidates!)

Help CTE Candidate to be a Professional (Standards 9.5-9.7)

- Strive to be a good model for your Candidate as you would expect from him or her.
  - Arrive on time to agreed upon observation periods
  - Dress and act appropriately, etc.

4 - Candidate ALWAYS does this as a teacher (Exceeds Proficiency)

- The Candidate always or consistently demonstrates the standard OR if the standard is situational, then the Candidate demonstrates the standard with a high level of confidence and competence in all situations. The Candidate’s demonstration of the standard is a model for teachers.

3 - Candidate MOSTLY does this as a teacher (Meets Proficiency)

- The Candidate mostly demonstrates the standard OR if the standard is situational, then the Candidate demonstrates the standard with a good level of confidence and competence in most situations. The Candidate may need a little bit more practice and guidance for demonstrating the standard.

2 - Candidate SOMETIMES does this as a teacher (Developing Proficiency)

- The Candidate sometimes demonstrates the standard OR if the standard is situational, then the Candidate demonstrates the standard with some level of confidence and competence in some situations. The Candidate may need some more practice and guidance for demonstrating the standard.

1 - Candidate RARELY/NEVER does this as a teacher (Below Proficiency)

- The Candidate rarely or never demonstrates the standard OR if the standard is situational, then the Candidate demonstrates the standard with little or no level of confidence and competence in any situation. The Candidate may need a lot more practice and guidance for demonstrating the standard.

NA – NOT ATTEMPTED - Candidate did not have the opportunity to do this

- The Candidate did not have the opportunity or appropriate situation to demonstrate the standard.

NA – NOT SURE – Question is confusing, ambiguous, or difficult to rate

- The standard is difficult to rate because the standard language is confusing or isn’t clear. In addition, the rater may not be familiar with the standard enough to give it an appropriate rating.

PLAN OF ASSISTANCE (POA) REFERRALS

On rare occasions, a CTE Candidate might encounter difficulties so serious that it is necessary to consider terminating the Candidate’s participation in the program or practicum. The Plan of Assistance Referral procedure will be followed when termination of the Candidate’s participation in the program or practicum is being considered.

1. As soon as a serious and potentially disqualifying problem is observed, a Plan of Assistance referral may be initiated by either the Course Instructor or College Supervisor or both. Once the referral is made, the POA is reviewed by the Program Coordinator who will then gather more information from all involved parties. A meeting with the CTE Candidate will be scheduled with the Program Coordinator, however, the referring instructor(s) may also be present. A plan that outlines specific timelines and the goals for improvement will be generated. A copy of the Plan of Assistance will be signed and provided to the CTE Candidate, Cooperating Teacher, and Course Instructor/College Supervisor.

2. The College Supervisor/Course Instructor, Cooperating Teacher, and Program Coordinator will document all interactions in the Plan of Assistance.

3. If the required outcome is achieved within the timeline specified, the CTE Candidate will remain in the program or in the practicum placement.

4. If the CTE Candidate fails to demonstrate sufficient progress, a second Plan of Assistance will be generated. If sufficient progress is still not met after the second referral, then a third and final Plan of Assistance will be generated. At this point, the referral will go to a panel for consideration of program discontinuation. The panel will be comprised of the Course Instructor/College Supervisor, Cooperating Teacher, Program Coordinator, Program Counselor, and a representative from the CTE Field identified and chosen by Leeward CC (e.g., CTE Advisory Board member, director, complex resource person).

5. Upon the recommendation by the panel, the CTE Candidate’s program or practicum participation may be terminated. If the recommendation by the panel is for the CTE Candidate to continue, then any subsequent POA’s referrals will go to the panel again for consideration of program discontinuation.
CTE Plan of Assistance Form

A CTE Candidate identified as needing remediation will be required to attend a review meeting convened by the College Supervisor (CS), Cooperating Teacher (CT), and/or Course Instructor (CI). The purpose of the meeting is to identify corrective actions the CTE candidate must take to remediate areas of concern. The successful completion of conditions outlined in this assistance plan will be required for continuation in the CTE program and/or field placement.
