ED 290 Foundations of Education

The Foundations of Education course (ED 290) introduces students to the teaching profession and examines the historical and current trends and issues that make up the American Educational System.

Student Learning Outcomes:

- Recognize and apply their educational philosophy beliefs in a K-12 classroom.
- Demonstrate the characteristics and disposition of a professional teacher.

Service Learning Assignment:

1. Engage with your students for at least 5 hours. Ideally in groups or as a facilitator during lessons.
2. Observe the classroom in order to record examples of his/her educational philosophy beliefs and their application.
3. Write a paper describing the beliefs they observed and how well they were applied in your classroom.
4. Reflect upon their own dispositions as a teacher and the level of professionalism they demonstrated in your classroom.
