Hi all,

I have received a request from the Human Resources subcommittee for the following information generated by an OFIE survey:

1. satisfaction of the services provided by Library, Human Resources, CELTT, Security, Business Office
2. level of administrative, faculty and staff morale
3. evaluation of professional development opportunities for faculty and staff

Presumably, each of these will require multiple questions; for example the first one might address each of the varied functions of the departments. I will be asking the subcommittee to flush these out more, but I thought this might be a valuable talking point for this Friday's Steering Committee meeting to discuss how much latitude OFIE has in the process of generating survey questions.

Thanks.

Bob
