WHAT IS SERVICE-LEARNING?

Service-Learning (S-L) is a teaching and learning method that integrates critical reflection and meaningful service in the community with academic learning, personal growth, and civic responsibility.

TYPES OF S-L*

- **Direct Service**: Working with school or community partners. Tutoring children, feeding homeless, working with elders, etc.
- **Indirect Service**: Affecting the community or environment as a whole. (fundraising, donating clothing, constructing a park bench)
- **Advocacy**: Creating awareness through writing letters, public performance, etc.
- **Research**: Producing environmental studies, community surveys, or other research to benefit the public.

KAPI‘OLANI
SERVICE & SUSTAINABILITY LEARNING PLEDGE

I will become more engaged in the community for my own self-development and for the world around me. I will keep an open mind, I will keep an open heart, I will use my wisdom to make the world a better place and I will inspire the next generation.

Mahalo to Arika Narikiyo for crafting this service-learning pledge.
THE SERVICE-LEARNING PROCESS

Investigate what KCC partner agencies align with your interests. Attend the S-L orientation to learn more. See p. 5-7 in this book.

Prepare for service learning about the compelling issue(s) your community partner works to address. See p. 8-25 in this book.

Act and create change by completing 25 hours and attending Talk Story sessions and workshops. See p. 25-32 in this book.

Reflect on your experience. See p. 33-37 in this book.

Demonstrate what you accomplished in a final project using writing, video performance, or artistic skills! See p. 39-41 in this book.

Evaluate how you did, how we did, and what you will do next. See p. 37-38 in this book.

CREATING QUESTIONS

These are examples of possible survey question types you can use to build your survey. Create as many as you need of the appropriate types to answer your hypothesis above.

Demographic: (you should have some of these!)

1. Gender (check one):
   o Female
   o Male
2. Age (check one):
   o Under 18
   o 18-30
   o 30-70
   o Over 70
3. Ethnicity: ___________________

Other demographic questions could include: occupation, neighborhood, etc.

Closed-ended:

1. I know where the library is:
   o Yes
   o No

1. If you could change one thing about the library, what would it be?

THINGS TO AVOID

Leading questions:
1. The library is super awesome!
   o True
   o False

Double-barreled questions:
(addresses two things, usually has the word “and”)

2. Do you think it is too cold and too quiet in the library?

Draft your questions. Use a separate paper if necessary.

PRE-INTERVIEW

Before you start interviewing, get someone to check your work. Ask them:

- Are the questions easy to understand and answer?
- Is this survey short enough? (less than 20 questions or less than 5 mins to complete.)
- Are the survey questions non-offensive? (not too personal or stereotypical.)
- Will the survey results be useful in answering your hypothesis above?
**CHANGE**

**Axioms for Change**
In her book, *Surfing Tsunamis of Change**, local sustainability leader Shanah Trevenna defines 30 axioms for change. Here and throughout this book are some of our favorites!

- *Slow, cumulative changes make consistent progress.*
- *Every challenge can be turned into an opportunity.*
- *Pull not Push = Team Stamina*
- *Change must build on existing efforts.*
- *You can't manage what you don't measure.*
- *Each step must benefit the Triple Bottom Line*
- *Let the path emerge.*
- *Give away credit whenever possible.*

---

Who can help you bring about positive change? Spread the word! Pick a resource (book, video, website, etc.) with essential information about the problem/issue/challenge facing your community. Share it with someone you know and explain why this information is important.

**Resource:**

**Why it's important:**

I've shared this resource with __________________________ via:

- [ ] SMS
- [ ] face-to-face talk

**Research and describe how other organizations** (government, private sector, non-profit/non-governmental sectors) **are addressing the issues you identified at your service site.**

---

Draw or describe one change that could help make your current community into that utopian community.

What are two theories, principles, or concepts you have learned in your S-L course(s) that relate to achieving your utopian community (cite authors when possible)?
Write a short memo to a policymaker whom you perceive to have direct influence over the situation you are working on at your service project to suggest a new law or government policy.

Describe a moment during your service...

where you felt uncomfortable.

where you felt great joy.

Compare to what you wrote on page 8.

How do you feel now about your service community?

Compare to what you wrote on page 12.
Will you continue to be involved in this issue?

☐ YES  ☐ NO

Why or why not? If YES, then HOW?

In five years, what do you think you will remember most about his experience?

What new community resources have you learned about through your service that are available to the community and its members?

What new skills did you learn during your service?

What have you done or learned through your service that gave you a sense of fulfillment?
